

Why on earth would you need near-boiling water on tap? Because after eight hours at the office, thirty minutes on the road, twenty minutes at the gym, and a ten-minute oil change, there's scant time to thaw chicken, boil pasta, and steam veggies. Let alone whip up a silky smooth chocolate custard.

THE INSTANT HOT WATER DISPENSER. **THE NEXT NECESSITY.**

With 190 degree water on tap, preparation times shrink. Discover filtration options, elegant finishes and the endless uses at insinkerator.com.
